Picture Gallery

Top Wall

ELECTRIC FENCES

Top Wall Electric Fences are used to keeping your home secure at all times.

Free Standing

ELECTRIC FENCES

Free standing electric fences are ideal for homes, hotels, car yards or workshops.

Farm

ELECTRIC FENCES

Solar powered farm fences are used to reduce human-wildlife conflicts.

Security Electric Fences

01

Energizer Machines

This is the machine that is used to energize the electric fence.

02

Fencing Wires

These are strands of wires that are energized to secure the perimeter.

03

Insulators

Insulators are used to keep the energized wires in place and from touching any other surface.

04

Fencing Posts

Fencing posts are available in either steel fencing posts, treated wooden posts or plastic fencing posts.

05

Fence Alarms

The alarm (a sounder and a strober light) are triggered when there is an intrusion or a tamper on the electric fence.

Solutions: Security Electric Fences

01

Highlights

NANYUKI, KENYA.

Solar Powered Farm Electric Fence

5,400 METERS

Treated wooden posts

2.5mm² High Tensile Fence Wire

Stafix X18i Energizer Machine

12 MONTHS WARRANTY
